

# Custom Heavy Duty Plow Hitches

**We have just the right answer for your special requirements.**

## **FEATURES:**

Custom designed hitches are specifically designed for chassis with or without factory installed frame extensions.

A choice of single or double acting plow lift cylinder is offered.

A choice of 21", 30-1/2" or dual push centers is available.

A choice of "Quick-Hitch" options is also available.

Cutting holes through fenders or grills is NOT required on plow only or plow/wing applications.

A pump/PTO bracket may be specified for various front mounted crankshaft driven pump applications.

Consult your nearest Viking-Cives dealer or the factory for availability.

All Viking-Cives custom designed hitches are specifically designed for your particular truck. Heavy-duty 1/2" or optional 5/8" cheekplates bolt directly to the frame. This along with an A36 structural steel A-frame provides for years of trouble free service. Viking-Cives leads the industry in availability of options and features to meet your specific requirements. A 4" bore x 10" stroke plow lift cylinder is standard.

← **STANDARD CUSTOM HITCH**

**POWER TILT HITCH** →

The Viking-Cives Power Tilt Hitch is available in configurations for plow only and plow/wing installation applications. A 4" bore by 10" stroke double acting lift cylinder provides power to lift the plow or to articulate the top sector of the cheekplates and the A-frame forward. During the summer months the entire tilt portion of the hitch may be removed to reduce weight on the front axle of the chassis.

← **TILT OVER HITCH**

The Viking-Cives Tilt-Over Hitch is available for certain trucks equipped with a stationary grill option. This hitch is designed to permit ease of access for routine engine maintenance on chassis with limited or no butterfly provision. Fabricated from the same structural components as our standard custom hitches, the tilt-over hitch may be just the answer for your special requirements. A 4" bore x 10" stroke plow lift cylinder is standard.

Also available from Viking-Cives upon request are both torque-arm and low mount style hitches

\*Note: Specifications are subject to change without notice. Use only VIKING authorized replacement parts and accessories to assure optimum performance and reliability.
